

**Duncanson, Tym** (from Tree Crop Technologies website)

Tym Duncanson – Business Development Manager, WA

Tym holds a Bachelor of Science (Forestry) and a Master of Science (Natural Resource Management). Over the last 25 years Tym has held a variety of roles in both private enterprise and government, giving him a broad perspective on the capacity to build environmentally and economically sustainable forestry and natural resource management enterprises. Tym was involved in registering WA's first plantation interest and carbon rights and has played a pioneering role in large scale eucalypt carbon sinks. He has previously been responsible for Western Australia's forestry business development function. Tym has been involved in founding and serving on a number of natural resource management boards. Currently Director of WestGen Pty Ltd and incoming Managing Director of Elementree Group Ltd, Tym continues at the forefront of forestry innovation.

In 1997 he was Manager of CALM Sharefarms Lower West.

He resigned before 2001.
